ROSS A. AYER,

Auditor.

July 5, 1929.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Stoddard:

I herein submit my seventh annual report as superintendent of schools.

As we face the rapidly changing conditions of vocational, business and spiritual life, we ask ourselves what is this thing which we call Education? We might fill this report with definitions which emphasize certain phases of education. A century ago men thought of education as a means of preserving the past. Now we think of education as a means of improving the future. Our real gain to civilization is the improvement of man himself.

Of the many viewpoints of education, Dr. John Dewey has hit the trail when he says in his book entitled *Democracy and Education*, "Education may be defined as a process of the continuous reconstruction of experience, with the purpose of widening and deepening its social content, while at the same time the individual gains control of the methods involved."

New Hampshire is carrying out this interpretation in the philosophy of its education, viz.: (1) through the fundamental law that every child shall be offered an opportunity to have whatever talents he may possess brought to the fullest possible development, whether he lives in the city or country; (2) the child and his interests become the center of all our efforts, including selection of text books, technique of methods, courses of study and selection of teachers. In fact, the child becomes the sun about which the appliances of education revolve, the center about which they are organized.

In the development of our educational scheme, we use certain methods and have certain goals. We must not confuse the two. A method is but a means to an end. Any method that gets the desired results in an economical unit of time is a good method. Methods come and go. Goals are more lasting. They endure for centuries.

Important goals of our public school system are: (1) the acquisition of facts or universal truths through scientific reasoning, (2) the development of the skills in the elementary schools, (3) the formation of right habits of life, (4) the endowment of right attitudes toward school work, home life, church interests and community affairs.

In short, we wish our children, considered from a psychological viewpoint, to possess alert mental abilities, rich feelings and righteous judgments.

Your superintendent, teachers and school board have kept in mind the above mentioned goals in the performance of their respective duties.

The degree of success we have attained, we leave to your judgment.

Following is a list of teachers with time of service for year 1928-1929:

Mabel Young, from September 10 to November 16.

Doris Glines, from November 19 to January 31.

Evelyn Thurber, from February 2 to April 12.

Marion Russell, from April 15 to June 14.

During the entire year, the school was under the cadet system of teachers from the Keene Normal School.

Average work was maintained throughout the year. Miss Young and Miss Russell excelled in methods of instruction and organization of the school.

Miss Idella Farnum of the Keene Normal continued her efficient service as critic teacher. Her careful guidance and helpful suggestions did much to eliminate obstacles, to direct the inexperienced beginner and give stability to the school work.

The following number of promotions per grade were made in June:

I,	II,	III,	IV,	V,	VI,	VII,	VIII,
1	0	3	2	6	1	1	1

These promotions were made on the five point basis, viz.: term rank, regularity of attendance, standard tests, judgment of teacher and the judgment of critic teacher.

The usual medical examination was given by Dr. Robb of Marlow.

For the year beginning September 1929 the school board decided to employ a regular teacher in place of the cadet system. Miss Marion Russell was employed for the year. At the time of writing, Miss Russell has the school well organized, is giving good discipline, and the school work gives promise for a successful year.

A much needed improvement to the school property is the installation of a well of water in the school yard.

In conclusion, I wish to thank the school board, teachers, parents and citizens for their co-operation and support.

Respectfully submitted,

FREDERICK T. JOHNSON.

Superintendent of Schools.

Marlborough, N. H., February 1, 1930.
